Bearchers Find the Body of Mrs. Hettie Carriag.

THEY EXPLODED POWDER

How the Accident Occurred-Follows Lorillard Into Deep Water-A Scream and She Went Down-Coroner's Jury Returns a Verdict.

Great Falls, Aug. 8.-At 8 o'clock this morning a party of searchers found the body of Mrs. Hettie Carrigg in Sun river, about 59 feet from where Professor Lorillard said he saw her go own. At 4 a. m. a party composed of Leo D. Marsh, Arthur Guerin, B. C. Walker and Joe and Frank Herring, accompanied by Professor Lorillard, secured a horse and wagon and pro-ceeded to the spot where the drowning occurred to continue the search abandoned last night by the sheriff on account of darkness. It was a party of friends of the dead woman, she having been, until about two months ago, housekeeper for Joe Herring. They carried a large quantity of powder with them which was exploded at various points near the spot where the woman was supposed to have gone down.

woman was supposed to have gone down.

At intervals members of the party dove for the body, while the grappling hook was operated by Arthus Guerin. After three hours' hard work the hooks caught something, and on being brought to the surface held the body hooked at the hip. The form was entirely divested of clothing and on being brought up was wrapped in clothing and under orders from Coroner Brady brought to Cook's undertaking parlors. Mr. Hutchinson, the dead woman's father, arrived from Belt this morning. At 1 o'clock Coroner Brady empaneled a jury composed of J. W. Cornelius, W. H. Harrison, W. P. Beachley, A. J. Vance, Nick O'Brien and Charles Gies. Mr. Hutchinson was present and listened to the testimony of how his daughter came to her death.

Professor Lorillard testified to the same import as in his interview with a Standard reported last night. They were in bathing together and had decided to cross the stream, carry their clothing and wheels over and return home by a less sandy route. He was not aware she was following him down stream, as he had told her not to, until he heard a scream and saw her go down. He tried to reach her but was fully 300 feet away and could not. After her disappearance he came to the city on his wheel and informed the sheriff.

The other members of the searching The other members of the searching party testified as to the finding of the body and its condition. There were no marks upon it save water discoloration. After a short deliberation the jury returned the following verdict:

"We, the jury, find that Hattle Carrigg (according to the evidence in the case), came to her death by accidental drowning in Sun river, about four miles from Great Falls, on the 7th day of August, 1897, about 3:45 o'clock p. m."

The funeral wil lbe held to-morrow and interment made here. All day long the morgue was visited by a throng to take a last look at the dead girl and none but stopped to marvel at the beauty of one whose sad end all

BURNED TO DEATH.

Little Minnie Nelson Covered With Flam-

Great Falls, Aug. 8.—The report of a very sad accident reaches here to-day from Pearmont, in Valley county. At the ranch of Fred Nelson, not far from there, a few days since, two little children belonging to Chris Nelson, a ranch laborer, were playing near some outbuildings with firecrackers. The youngest child, Minnie, aged 5 years, was hiding in one corner of the ice house in which several cans of coal oil were stored. In some manner the ice house hiding in one corner of the ice house in which several cans of coal oil were stored. In some manner the ice house caught fire and when the flames reached the oil there was a terrible explosion. Little Minnie was covered with burning oil, but managed to make her escape from the doomed building. All the men on the ranch were at work in the field. When Mrs. Nelson saw the child enveloped in flames, rushing tothe field. When Mrs. Nelson saw the child enveloped in flames, rushing toward the house, she ran out and met her. Soon the flames were extinguished but too late to save the babe's life. The fire had been inhaled and the child's mouth and throat were horribly burned. An hour after the accident the little sufferer passed away.

Careless With a Rifle.

Great Falls, Aug. 8.—Sheriff Kyle of Valley county passed through the city en route to Deer Lodge, having in charge W. R. Baker better known as "Cockney," sentenced to one year for assault with a deadly weapon.

In June last Baker espied a gang of hoboes bathing in the river near Glasgow. He secured a rifle and for an hour terrorized the men by firing at them and striking the water but a few feet distant from where they were swimming. The men were obliged to leave the water and rush to the opposite bank and hide themselves in the adjacent woods. "Cockney" has been a source of annoyance about Glasgow for some time.

County Treasurer's Report.

Great Falls, Aug. 8.—County Treasurer Geisthorpe has submitted to the county clerk and recorder his report of the condition of the several funds July 31. It shows a balance in the treasury of \$105,359.90. The balances in the more important funds are: General, \$26,796.-19; contingent, \$24.457.21; poor, \$12,906.-49; general school, \$1,402.39; district school, \$33,328.85. The receipts in July were: From taxes, \$376.40; licenses, \$3,511.60; officers' fees, \$4,916.77; other sources, \$137.43. The disbursements were \$12,855.39.

Visit Belt.

Belt, Mont., Aug. 7.-Arrangements are being made to extend a formal in-vitation to Hon. W. J. Bryan to visit this city during his trip to Northern Montana the present month. Belt is composed of working men, and the great silver champion last fall reecived almost the unanimous support of these voters in that memorable presidential contest. No other mining camp or town in the state conributed more freely to the silver cause than did the coal metropolis of Montana, and very naturally the common people of this locality desire to greet him in person in the little city they are proud to call home. If, however, Mr. Bryan is unable by reason of other engagements to honor Beit with his presence, no jealousy of more favored localities will be entertained and the people will lay aside labor and business for a day and visit Great Falls en masse to assist in the reception and entertainment of the distinguished visitor.

New Mineral in Barbadoes

New Mineral in Barbadoes.

From the London Engineer.

Large quantities of a certain mineral, locally cailed "manjak," were recently found in the island of Barbadoes, West Indies. It bids fair to outrival in point of utility all similar substances occurring in various parts of the globe. Manjak is of a black color, not unlike pitch, and possesses a high luster. In Barbadoes it is found very near and scmetimes upon the surface of the ground in seams varying from one feot to two feet in thickness, running usually in close preximity to rocks. It is supposed to have been formed by the drying up and consolidation of petroleum. Among the various uses to which manjak has been successfully applied may be mentioned insulation for electric wires, varnishes of the best quality, bituminous concrete in asphalt roads and pavements, patent fuel, mixed with peat or 6ther organic matter, intensifier of the illuminating power of coal gas. It is expected by some experts that it will soon supplant rubber in all waterproof work.
